

SUBSCRIPTION TERMS

These Subscription Terms apply to subscriptions to Talino, including our web and mobile applications (the "Product"), our website located at <https://get-talino.app/> (the "Website") and related services (together, the "Services").

1. Trial

We may offer a trial subscription for the Services. A trial may be free or offered at a reduced or introductory price, as indicated at the point of purchase. Unless you cancel before the end of the trial period, your subscription will continue and you will be automatically charged the applicable subscription fee for the chosen subscription period at the price shown on the payment screen.

2. Subscription

The subscription renews automatically at the end of each period (each week, month, 6 months, year, or otherwise, depending on the option you selected at the time of purchase) until you cancel.

We may also offer commitment plans, under which you subscribe for a minimum period (the "committed period") and pay the plan fee in periodic payments over that period. If you cancel before the end of the committed period, you may be required to pay the remaining amounts due for that period, as disclosed to you at the time of purchase.

3. Payment method

Payment will be charged to the payment method you provide at checkout, at the time you confirm your purchase. You authorize us to charge the applicable subscription fees to that payment method.

4. Cancellation

Canceling your subscription disables automatic renewal, but you will still have access to all your subscription features for the remaining time of your then-current period. Note that uninstalling the Product does not cancel your subscriptions. If you cancel a commitment plan before the end of the committed period, cancellation stops the automatic renewal but does not remove your obligation to pay any remaining amounts due for that period, as described in Section 2.

5. Changes

To the maximum extent permitted by applicable laws, we may change subscription fees at any time. We will give you reasonable notice of any such pricing changes by posting the new prices on the Product and/or by sending you an email notification, or in another prominent way. If you do not wish to pay the new fees, you can cancel the applicable subscription before the change takes effect.
